Zur Montage des Standard-Kamerahalters siehe Zeichnung.

Installation Camera mounting bracket Montage Bügel-Kamerahalter/

Stand 04/2014

Nr.	Artikel	Item	Stück	MCB- 500A	MCB- 500B	Peices	5002	5004
1	Basishalter	Bracket base	1	X	X			
2	Schlagschneidzange M6x25	hexagon head cap screw M6x25	3	X	X			
3	Belagschleife M6	flat washer M6	3	X	X			
4	Gummimutterdose (Moosgummi)	rubber buffer (foam rubber)	1	X	X			
5	Mutter mit Flansch M6	flange nut M6	3	X	X			
6	Zylinderkopfschraube M6x8	cylinder head screw M6x8	4	X	X			
7a	Kamerabuchse für Basisstifte (Zweileilig)	camera support for bracket base (two-piece)	1	X				
7b	Kamerabuchse für Basisstifte (Einleilig)	camera support for bracket base (one-piece)	1					
8	Zylinderkopfschraube M6x5	cylinder head screw M6x5	6					
9	Durchführungsstilile	grommet	9					

1. Basishalter (1) in desired position and mark drill holes on vehicle body
2. Punch mark the drill holes and drill Ø 6,2 mm
3. If necessary drill cable outlet into vehicle body (Ø 18mm), to install the cable.
4. Tighten bracket base and rubber buffer (1-5). Please use the grommet (9).
5. Mount (6) camera onto camera support (7a/b). To ensure proper image positionning, make sure that TOP mark is oriented towards the top.
6. Fasten (8) camera support with camera (7a/b) to the bracket base (1).
7. Ensure cable strain relief.

Installation of camera mounting bracket

1. Basishalter (1) in desired position and mark drill holes on vehicle body
2. Drill holes and bore Ø 6,2 mm
3. Drill the mounting holes with Moosgummiwundlochdüsen (6). After drilling, clean the hole with a wire brush.
4. Drill the mounting holes with Moosgummidüsen (7a/b) and basic washers (1-5).
5. Camera and Moosgummidüsen (7a/b) are now ready to be mounted.
6. Camera mounting bracket with Moosgummidüsen (7a/b) and basic washers (1) is now ready to be mounted.
7. For Zuggentlastung des Kabels Sorgé hängen.
